

Dear Organizers,  
Dear Representatives of Dance Schools and Participating Teams,

I, Diana Neicu, President of IDO Romania, would like to express my official support and recommendation for the Play International Dance Competition, which will also take place in 2026, under the coordination of Ms. Noémi Simon, Director of the event.

Following several years of collaboration with Ms. Noémi Simon and the Play Dance Competition team, I can state with full confidence that this competition is organised at a high professional standard, based on fairness, transparency, and respect toward dancers, coaches, and participating institutions. Over the years, we have consistently collaborated on various projects and activities within the framework of the International Dance Organization, a partnership that has proven to be solid and trustworthy.

The principles and values promoted by the Play International Dance Competition are fully aligned with those of the International Dance Organization, emphasising artistic development, healthy competition, and the promotion of dance at an international level.

In this context, I confidently recommend the participation of dance teams, schools, and clubs in this year's Play International Dance Competition 2026 edition, as it provides a safe, professional, and valuable environment for all participants.

With respect and consideration,

Diana Neicu  
President, IDO Romania
